

Combinatietabellen

Op de hiernavolgende pagina's vindt u de combinatietabellen op basis van de nieuwe Multi-splitbuitendelen MXM-A.

Voor Multi-splittoepassingen hebben wij voor u een aantal handige tools beschikbaar zoals de Capacity Table Viewer en de Multi-split selectietool. U kunt eenvoudig toegang krijgen tot deze tools door met uw Daikin-ID in te loggen op My Daikin Customer Portal via:

[MY.DAIKIN.NL](https://my.daikin.nl)

Capacity Table Viewer tool

Om u sneller toegang te geven tot de data van de door u gewenste indeling, hebben wij een tool ontwikkeld voor het raadplegen van de capaciteitstabellen. Met de Capacity Table Viewer tool kunt u snel de capaciteitsgegevens vinden en exporteren die u zoekt op basis van het model, het koudemiddel en de aansluitverhouding.

Multi-split selectietool

Met deze eenvoudige, webbased selectietool is het mogelijk om het meest geschikte Multi-splitsysteem voor de individuele behoeften van uw klant te kiezen.

Combinatietabellen

Energie Investeringsaftrek (EIA-)regeling 2022

De Rijksdienst voor Ondernemend Nederland (RVO) heeft voor 2022 bepaald dat, om in aanmerking te komen voor de EIA-regeling, de SCOP-waarde van luchtgekoelde Split-, Sky Air- en VRV-systemen met een nominaal thermisch vermogen van ≤ 12 kW minimaal **4,4** moet zijn.

Dit jaar heeft de overheid besloten om de EIA-richtlijnen voor criteria 211104c (lucht/lucht warmtepompen ≤ 12 kW) per 1 januari 2022 verder aan te scherpen. Daar waar in 2021 werd bepaald op basis van de SCOP-waarde van uitsluitend de buitenunit, wordt deze nu bepaald op basis van de SCOP-waarde van de complete set (binnen- en buitenunit). Voor de systemen > 12 kW zijn de EIA-richtlijnen onveranderd; de SCOP-waarde moet minimaal 4,0 zijn en de subsidie wordt bepaald op basis van de waarden van uitsluitend het buitendeel.

In deze editie hebben wij bij de Split-buitendelen de SCOP-waarden van de complete sets en bij de Sky Air-buitendelen de SCOP-waarden van zowel de complete sets (≤ 12 kW) als de buitendelen (> 12 kW) vermeld.

Het maximumbedrag dat de RVO heeft ingevoerd voor de EIA-regeling, is vastgesteld op € 1.200,00 per kW nominaal geïnstalleerd vermogen. Er is altijd een Daikin systeem te configureren, dat voldoet aan de EIA-regeling 2022. Voor meer informatie over deze regeling ga naar www.rvo.nl/eia, bekijk de factsheets in de Bibliotheek (Sales, Factsheets) van My Daikin Customer Portal via my.daikin.nl of download het document 'Subsidies en fiscale regelingen 2022' op onze website daikin.nl/subsidies.
